29.6" wide

Reduces Turnaround Times

From reducing errors, to tracking deliveries, to integrating with clinical and access systems, Pevco Beam™ helps clinicians reduce turnaround times.

Empowers Clinicians

Intuitive user controls, ergonomic design and seamlessly integrated technology empower clinicians to focus on patient care.

Lowers Total Cost of Ownership

By streamlining planned maintenance, using durable steel components and incorporating long-lasting, easy-to-clean Kydex™ surfaces, Pevco Beam™ lowers total cost of ownership.

Optional Features

- **PROXIMITY BADGE READER** identifies staff member sending and receiving valuable items
- **BARCODE READER** tracks the exact contents delivered for a complete audit trail
- **CARRIER RFID TRACKING** helps ensure each station has the correct inventory of empty carriers and seamlessly documents the carriers used for every delivery
- **SECURITY DOOR** available for stations located in public areas
- **SIDE & TOP PANELS** available for counter-mount applications
- **CARRIER STORAGE** compartment for four carriers

Quiet Operation

Sound-absorbing materials deliver quiet operations

Reduces Errors

Large, easy-to-read, capacitive touchscreen helps reduce errors

Accessible

ADA-compliant design for height and reach provides access to more users

Easy Cleanup

Seamless Kydex™ carrier arrival bin with removable carrier arrival pad contains spills and makes cleanup easy
