

# Pevco Diverter

UPGRADE

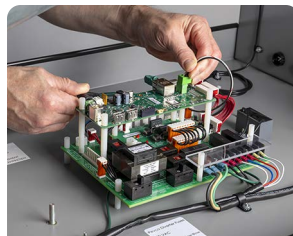

Upgrading your system's diverters helps maintain peak performance of your pneumatic tube system, ensuring critical deliveries arrive on-time, every time.

Pevco Diverter

Quiet & More Efficient Motor

Installs Quickly

Non-Contact Proximity Sensors

Interlocking Air Seals

## Diverter Upgrade at a Glance

Quiet & more efficient motor that includes an integrated, self-adjusting brake

Works with all Pevco Diverters and with most other vendor's diverters

Installs quickly with minimal system down time

Non-Contact Proximity Sensors maintain consistent port alignment

Interlocking air seals are long-lasting and reduce air leaks
